BEST MEETING LOOMS FOR TANFORAN FANS

By J. W. MARCHBANK

Good horses are arriving early for the fall meeting at my Tanforan track. Nearly five hundred runners have come in from east, north and south, and four hundred more will soon be on the way. The class is of the kind that makes the highest type of racing certain. What is important, too, many of the most clever jockeys in the country will be present at the doings at San Bruno.

The opening comes on Thursday, October 8, so it can be realized how short is the time for making the final preparations for the 25 day period of sport. As has been my custom for some years, I am making improvements at the plant to make things more comfortable for the fast increasing army of men and women coming to the races.

As for the thoroughbreds themselves, roomy stalls have been added in the northern sector and prior to the racing next year in all likelihood even more barns will be built. It has always been my aim to accommodate all the owners and if that has been impossible this fall it is because of the tremendously increased interest in Tanforan everywhere. That interest works out in one way that is somewhat hard to cope with; applications for stabling space keep pouring in, even when the stall supply has long been exhausted.

Early this week Ivan Parke, former famous rider, brought a representative string from Narragansett Park. As the horses will be freshened up sufficiently for early action it is all to the good that Parke had the forethought to ship about three weeks prior to the Tanforan opening.

Next Tuesday four carloads will leave Detroit for Tanforan. Many of the best gallopers of the Detroit meeting will come out, including those of Jack Carter, C. S. Howard, "Bill" Causey, W. N. Pearce and others.

It has been a long time since things looked so propitious for a highly successful meeting. A circumstance that should help is the staging of the bay bridge celebration in the days following getaway at Tanforan on Armistice Day. What I said last week is worth repeating: Sportsmen are coming from all over the country to be "in" at both the celebration and at the race meeting and that all works out toward spreading the fame of San Francisco.

Business vs Baseball

WORLD SERIES OPENS NEXT WEDNESDAY—PROBABLY AT NEW YORK

OPPORTUNITY OF BETTER SERVICE

This issue will be the last under the heading of Daly City Record and First Township Tribune. Hereafter the masthead of this paper will read as formerly—Daly City Record—and the other consolidates will hereafter be known as the Brisbane Sun and First Township Tribune.

We feel certain this change will furnish us the opportunity to be of better service to the communities affected by the new merger.

SUICIDE TAKES OLD RESIDENT

Ill health was probably the reason why Herman Schroder, 78, of 126 Crocker avenue, Daly City, decided to end it all. His body, with a bullet through the temple, was found early last Saturday morning on the Great Highway near Sloat boulevard and the beach in San Francisco. The right hand still grasped an automatic pistol. The remains rested in a San Francisco morgue for nearly 24 hours, then Deputy Coroner Luella D. Pepper, learing that Schroder was missing, checked with the city coroner. The final identification was made by a grandson, Lloyd Oslie of San Francisco, who recognized a signet ring bearing the initials of the deceased and his wife.

Funeral services were conducted from the mortuary chapel of W. C. Lasswell and Company, Monday afternoon of this week, at 2:30 o'clock. The deceased is survived by his widow, Caroline Schroder and a sister, Mrs. A. Peck. Interment took place in Olivet Memorial Park.

BAY BRIDGE CELEBRATION COIN IS IN BIG DEMAND

Eastern Collectors Eager To Secure Commemorative Pieces At Early Date

If Californians are desirious of obtaining the 50 cent commemorative coin to be issued by the United States Treasury in honor of the opening of the San Francisco-Oakland Bay Bridge, November 12, 13 and 14, they are urged to place their orders immediately. The demand from the east and middle west is so great, according to the manager of the coin division, that residents of western states, to whom the bridge will mean the most, are lively to find themselves unable to purchase any.

Applications from thousands of eastern collectors have been received at the headquarters of the Coin Division, San Francisco-Oakland Bay Bridge Celebration, 625 Market street, room 615, San Francisco, despite the fact the coins have not even been minted. These orders will be filled in the order which they are received.

With authorization for the minting of only 100,000 coins, the present ratio of demand shows the eastern states leading California by a large margin. Out of every hundred applications only five come from California. The coins will be minted at San Francisco only and should be available for delivery about the end of October.

Design for the coin, which was made by Jacques Schnier, California sculptor, will show the California Grizzly Bear facing forward on the obverse side and the great bridge spanning San Francisco Bay on the reverse side. To facilitate the purchase of the coins, arrangements have been made with California banks to handle over-the-counter sales at the stipulated price of $1.50 per coin.

BASS DERBY AT RIO VISTA WILL BE BIG EVENT

Parades, Music, Fireworks, Amateur Entertainment Also To Be Features

With entries pouring in from all sections of California — with a sprinkling from other states—this year's crowd at the fourth annual Rio Vista Striped Bass Derby is estimated at well in excess of last year's affair, which drew some 30,000 anglers and onlookers.

Although the big "darby day" is Sunday, September 27, not a few thousand will head for this city, on the banks of the Sacramento River, to witness and participate in the monster carnival to preced the derby on Saturday night.

Fifty comely girls, representing every city and town within a 50 mile radius of Rio Vista, have been entered in the "Mermaid Parade," one of the main features of the carnival night. By the week of the derby it is expected that the list will be swelled to 100.

Winner of the "Mermaid Parade" will be adjudged "Queen of the Derby," and will rule in royal fashion over festivities of carnival night and the derby day.

Meanwhile, for the angler (after all, it is really his show) there are some $2,500 up in worth while prizes for the anglers and anglerettes who catch the largest fish during the day.

For mother, sister, sweetheart and the kids there will be amateur entertainment Saturday night and throughout Sunday, illuminated parade, music, fireworks and a real carnival spirit.

One more word, bring along the favorite smoothbore, for there is a two day registered skeet shoot with medals and cups for the winners.

All roads lead to Rio Vista September 26 and 27.

RUNNERS FROM TAYLOR STABLE NOW AT TRACK

High Class Performers Are Ready For Opening Of Fall Meeting

Indian Broom, world record holder for a mile and an eighth, and Special Agent, a stakes winner, head the powerful stable of Major Austin C. Taylor, multimillionaire Vancouver, B. C., sportman, which is assembled at Tanforan for the coming 25-day fall meeting, opening October 8. Fresh, fit, and with the traveling kinks out of their system after a speedy trip from British Columbia, the string, numbering seventeen strong, is easily one of the best which will campaign in California during the fall and winter season.

Indian Broom, light, long barreled chestnut 3 year old, who blazed to national prominence and a world mark of 1:47 3-5 for nine panels, has been in virtually constant training since his amazing feat last spring at this course in the first running of the Marchbank Handicap. Shipped to Kentucky immediately after his time shattering victory, he ran a smashing third to Bold Venture and Brevity in the Derby. A campaign in Vancouver brought triumph in two $5,000 stakes and then he met defeat in two Seattle engagements when he gave more than twenty pounds to his conquerors, Primulus and Blue Boot, who are both here

POPULARITY CONTEST ENTRANTS ARE WORKING HARD FOR HONORS

Our Own Edna Brooks Lasswell of DalyCityExpects To Be The Winner

Seven of San Mateo County's most beautiful young women have officially entered the popularity contest being sponsored by the San Mateo County Products and Floral Fiesta at Bay Meadows, October 8 to 11.

Daly City will be represented by Edna Brooks Lasswell, who, according to pre-contest dope, is one of the favorites. At least a score of beautiful girls are expected to be competing for the Ambassadress of Good Will title when the contest closes on October 7.

The seven entrants in the contest are: Adrienne Sausset, Redwood City; Metty and Katherine MacNiel, Burlingame Janice Crown, San Mateo; Bettina Norberg, Burlingame, and Edna Lasswell, Daly City.

Each of the girls has submitted her entry blank along with a bathing suit photograph of herself to the Fiesta headquarters, 116 B street, San Mateo.

Mrs. D. H. Saeger, Burlingame club woman, has been named to take charge of arrangements for the contest. She is now making a survey of the various districts from which no entrants in the contest have been signed up as yet.

Meanwhile the announcement that the Fiesta will be boosted on the California Hour, a Columbia network feature, on October 5, was being hailed with enthusiasm. The entire one hour program will be devoted to San Mateo County. Conrad Nagle will be master of ceremonies.

Accept More Bids For Fair Building

Earl Lee Kelly, state director of public works, has awarded six architectural contracts totaling $626,658 on unit No. 2 of the Livestock Exposition Building at Visitacion Valley, San Mateo County.

The building will be reinforced concrete in structural steel construction.

OUR OWN HOME TOWN GIRL

EDNA BROOKS LASSWELL

Day Observed By Special Assembly At High School

The guest speaker of last Thursday's Constitution Day Assembly at Jefferson Union High School was George Crocker, San Francisco attorney. His topic was "What the Constitution of the United States Means to Me."

In his talk he enumerated three very important features of our government: (1) the system of checks and balances (2) the dual system under which there is a separation of powers among the national state and local government; (3) the Bill of Rights.

"Some persons believe that our Constitution is out of date; but in the 147 years that it has been in effect we have found it necessary to change it only 22 times. It is the greatest document of its kind in the history of the world," he said.

In closing Mr. Crocker spoke of the Constitution as "the guarantor of the kind of life which we in this country have been pleased to call the American life."

Mrs. R. L. Crane and Mrs. Grace Hill, representing the American Legion Auxiliary, Daly City unit, were special guests of the afternoon.

CALIFORNIA HOUR TO FEATURE SAN MATEO COUNTY

Will Set Forth Some Of The Many Adavntages On Our Peninsula

"California's Hour," one of the most popular weekly broadcasts on the Pacific Coast, will pay tribute to San Mateo County and its cities on Monday night, October 5, in response to numerous requests from local chambers of commerce, civic organizations and business groups.

Among the several requests which resulted in the dedication of the broadcast to San Mateo County were those of Gilbert Keitle, manager of the San Mateo Chamber of Commerce; Walter T. Kellogg, county executive Martin A. Poss, manager San Mateo County Products and Floral Fiesta, and William C. McCarthy, director of publicity for San Mateo County.

"California's Hour" is released over the statewide Columbia-Don Lee network and is heard locally through Station KFRC and will include a vivid work picture of San Mateo County, incorporating the many horticultural, industrial and business assets as well as something of the scenic beauty and historical background. Special mention will be made of the second annual County Floral Fiesta, which is to be held a few days following the broadcast.

San Bruno Ousts Rudolph Rapsey As City Counsel

R. A. Rapsey was ousted as city attorney for San Bruno and the vacancy filled by City Attorney Ernest Wilson of San Mateo at a special meeting of the San Bruno council late Saturday of last week.

The change does not affect Rapsey's position as city police judge, officials said.

The ousting was said to be a result of factional differences on the San Bruno council and an aftermath of the recent stormy municipal election.

Judge Fines Man 500 For Untaxed Liquor

Henry Bendenelli, 22, 911 Bayshore highway, San Mateo, was fined $500 for the possession of 240 gallons of untaxed wine and ten gallons of untaxed whisky by Federal Judge A. F. St. Sure, this week.

363d Infantry Vets To Hold Reunion

Annual reunion of the 363rd Infantry Regiment, "San Francisco's Own," will be held Saturday night preceding the Ninety-first Division annual smoker.

High Court Okehs Big Damage Award By Judge Cotton

The appellate court has upheld Superior Judge A. R. Cotton's awarding of $15,000 damages to Mrs. Clair Everett, widow of the late Ralph Battison, who was killed in an automobile accident on El Camino Real three years ago.

Defendants in the action were the Howard Buick Company of Burlingame and Erick Flippen. In the original suit Mrs. Everett sued for $50,000 damages. The fatal accident took pleca August 2, 1933, between Millbrae and San Bruno.

BELOVED COUPLE PASS 50 MARK

Most of the old residents of Daly City, will remember Mrs. Johns Mamma Johns as they called her then, hurrying with Doctor Beatie over the sand dunes to the ranches to answer the call of the stork. In those years lived in Colma, she was ever faithful to the call of the sick.

Mr. and Mrs. Richard Johns will celebrate their Golden Wedding anniversary, Monday, September 28. They will enjoy a wedding supper with their children at the home of their daughter, 2331 San Bruno avenue, San Francisco, where they are now making their home.

Mr. and Mrs. Johns came to California and settled in Colma in 1907. Mr. Johns fulfilled 27 years of work for Mt. Olivet cemetery. This faithful service would still be continuing in our midst had it not been for serious illness. They were obliged to make their home with their daughter, Mrs. Anna Huhn, a nurse, who has lovingly cared for them since May, 1934. They are both quite helpless, Mr. Johns having been bedridden since October, 1935. Their daughter considers it a privilege to care for them and recounts many a helpful lesson she has learned from them which assisted her to solve the varied problems of life.

Family Circle To Open Doors Soon

Pat Callaghan, a resident of Daly City, has established an inn, "The Family Circle," at 5286 Mission street, where light lunches, sandwiches, beer, wines and liquor will be served.

There is to be a grand opening on Saturday, October 3, and Pat will be looking for familiar faces from his home town. Remember the date. Free sandwiches on opening night.

AMERICAN LEGION AUXILIARY WORK

On Wednesday, September 16, Daly City Unit No. 410, American Legion Auxiliary ,held their regular meeting in Legion Hall.

Alice Reilly, the membership chairman, reported progress on her drive and is working hard to win some of the beautiful prizes for Daly City unit. The Americanism chairman, Grace Hill, has arranged for unit members to sponser the Constitution Day programs in schools in Daly City. Excellent programs have been arranged.

The junior group installed newly elected officers of the Burlingame juniors on Friday, September 18. It also held a regular meeting on Monday, September 21, at 7 p. m.

Friday, September 11, the delegates of the San Mateo County Council, accompanied by several of the members, motored to Burlingame to attend the last meeting of the council, which was dissolved in favor of the new Twenty-sixth District. Mrs. Marcia Trier of Daly City is the district president; Mrs. Margaret Kenny, past president of Daly City unit, was appointed marshal, and Mrs. Hilda Prziborowski, also a past president, was appointed drill team chairman.

On Thursday, September 30, a card party will be held in the Daly City Legion Hall. Ann Welsh is party chairman and promises a pleasant evening to those who attend.

Enjoy No Hostess Dinner Dance

A no hostess dinner dance was greatly enjoyed by a group of friends, Saturday evening of last week, at the Bal Tabarin Restaurant in San Francisco.

Those in the group were Messers and Mesdames John Ferro, Peter Conci, William Webb, Harry Anderson, Anthony Grassel, William Street; Misses Alice Lorenz, Verna Conci, Mary Caulfield and Messers Walter Moran, Nelson Burges and Frank Hull.

Night Classes At Jefferson High

Since the opening of Jefferson High's night school, there have been 37 people enrolled. There are 21 in the stenography class and sixteen in the citizenship class. Miss Dorothy Smith teaches the class of stenographers and Mr. Vollbrecht the citizenship class. Mr. Vollbrecht says that he expects more pupils later on in the term. Many former students of Jefferson attend the night class of stenography.

If any of the students parents want to get their citizenship papers, they will be welcomed and taught the fundamentals of the Constitution.

Passengers in the smoking compartment on my train were arguing about why railroad business is picking up.

A factory owner said it was because of Free pick-up-and-delivery of less than carload freight. The railroad calls for the LCL freight at shipper's door and delivers it to consignee's door.

A traveling salesman said it was because so many passenger and freight trains now run on faster schedules.

There was a school principal in the group and he said it was because train travel is so much cheaper for passengers. He said passenger fares are at the lowest point in history, with substantial reductions if you buy a round-trip ticket—and no more surcharge for riding in sleeping cars.

One man, a farmer, said he liked something he could depend on, that's why he was traveling by train.

Another man, a newspaper reporter, said people were in favor of railroad travel because it is by far the safest. He quoted a lot of statistics from a book called, "Live and Let Live."

A banker we all know by name said railroad tax payments mean a lot in this state.

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

Musical Comedy At Alcazar Theater

The Pacific Coast premiere of "Meet My Sister," the gay musical play, will be held at the Alcazar Theater on next Sunday afternoon, and to add to the importance of the occasion Henry Duffy has brought two new stars to San Francisco to appear in the leading roles. They are Walter Slezak and Nancy McCord, both of Broadway fame.

Walter Slezak is the son of the great opera singer, Leo Slezak, and won fame as a Viennese musical comedy star, where he first appeared in "Meet My Sister" before coming to London and then to the United States. He arived in New York four years ago and has played there continuously in such big hits as "Music in the Air," Meet My Sister," and co-starred with Ina Claire in "Ode to Liberty" and also co-starred with Nancy McCord in "May Wine."

Nancy McCord, who also plays her original role of the Countess in "Meet My Sister," ranks as one of the leading and surely the most beautiful of the young New York prima donnas. In addition to "May Wine" she has been starred on Broadway in "Three Little Girls," "All the King's Horses" and "Annina."

Olive Olsen, William Kent, Tyler Brooke, Claude Allister, Lois January and Eduard Franz will be featured in this brilliant musical play.

Otto Gruger, who is starring in that romantic drama "Parnell" with Edith Barrett, Effie Shannon and many other favorites, will close their run at the Alcazar Theater with the matinee and evening performance this Saturday.

Dinner Marks A Special Day

Mrs. R. Christian, 137 Flournoy street, enjoyed a visit from her brother and his wife, Mr. and Mrs. A. McDonald of Martinez.

On last Saturday, Mrs. Christian helped her guests celebrate their twenty-fifth wedding anniversary by a sumptuously prepared dinner served to the following

Mrs. Leo Kerr, Raymond Christian, the "Bull of the Woods" and the "honorable" Mr. Guss, and of course the host and hostess.

Monthly Whist Party

The regular monthly whist party, given by Hillcrest Circle No. 143, Order of Druids, at Eagles Hall, will be held Monday evening of next week.

Mrs. Catherine Foreman and Mrs. Marcie Trier, who are in charge of this affair, assure all attending a pleasant evening.

To Hear Vandaleur

Edward D. Vandaleur, secretary of the California State Federation of Labor, will adress the Democratic Women's Forum, Wednesday, October 7, at 8 p. m. at the Womens City Club, 465 Post street. His subject will be "Why Labor is for President Roosevelt."

The public is invited to attend.

"Breaking-In" Oil

It is unwise to use certain types of breaking-in oil on some of the new model cars.

Some cars are now equipped with bearings that are harmfully affected by such oils. If a breaking-in oil is considered necessary the car dealer should be consulted.

RUNNERS FROM TAYLOR STABLE NOW AT TRACK

(Continued from page 1)

now. He has thrived on the campaign—gaining some 75 pounds and looking in better condition than at any time during his 3 year old form.

While Indian Broom was pounding the race tracks, his stablemate, the flashy 4 year old Special Agent, was leading a quiet life at his owner's farm near Vancouver. This hard hitting handicap horse was fired early last spring and has been given a rest, letting time and nature strengthen his ankles. He was put back in training a month ago and has been galloping two miles every morning since then. His connections are well satisfied with his present condition and he will be seen in action in stake engagements at the coming meeting. Special Agent, in winning his final spring engagement, demonstrated clearly that he is a first class horse, defeating Azucar, the winner of the $100,000 Santa Anita Handicap, with considerable ease.

The horses are here in charge of Darrell Cannon, who made turf history last winter when he assembled the big stable at Santa Anita, and then preceded to capture handicap after handicap with them at Tanforan and Bay Meadows, earning the leading trainer's laurels at both meetings.

Flanking the two bright stars of the string are fifteen other clever performers, who will be seen in action in the handicaps this season. They include Bonny Grafton, Bye Lo, Torolee, Pyramus, Brass Bottle, Quick Look, Pharella, Persian Knight, Jargo, Pharlach, Red Ensign, Time Flight, Whichcee, Whiskennah and Fort Springs.

Jockeys George Burns and Johnny "Scotty" Craigmyle will do the stable riding.

Major Taylor has nineteen yearlings quatered at Pleasanton, California, which will augment his stable January 1, next.

Costume Party And Benefit Whist

A benefit whist party to be held the evening of October 9 at Eagles Hall, Daly City, has been announced by the Court St. Marys, Catholic Daughters of America. The affair will be conducted by the chairman, Mrs. Vargas, assisted by Mrs. M. Fahey and a host of others. A number of valuable prizes will be offered.

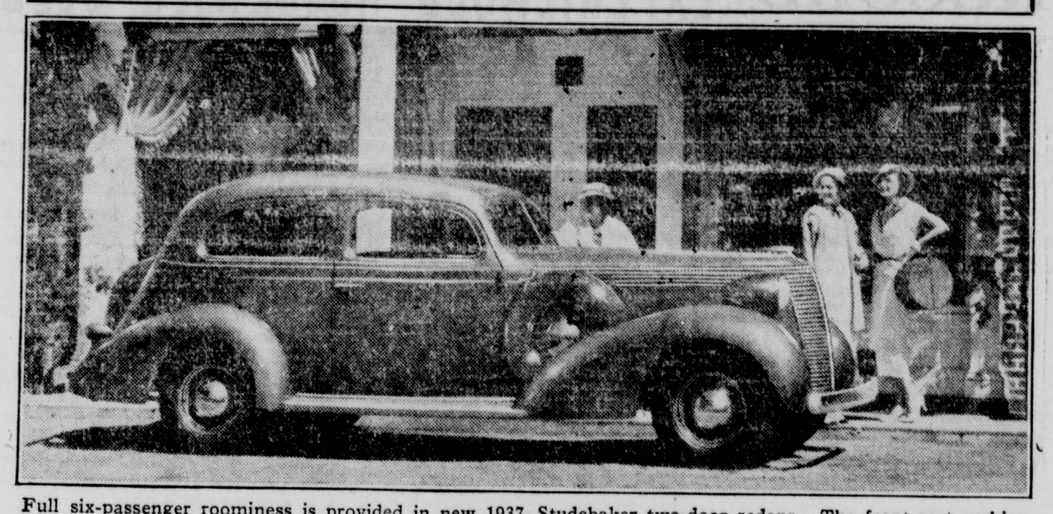

Plans for a costume party under the direction of Mrs. Ed. Ford are being formulated for the latter part of October. Date and place will be announced later.

Transamerica Buys Another Bank

Transamerica Corporation has acquired the First National Bank of Southern Oregon, located at Grants Pass, according to an announcement this week by A. P. Giannini, chairman of Transamerica's board.

This bank, which serves the rich Rogue River territory, has total resources of $1,659,000 and capital, surplus and undivided profits of $148,000. It was founded in 1889 by the same group of financiers who organized the First National Bank of Portland, which is also owned by Transamerica.

Studebaker St. Regis Sedans are Full 6-Passenger

Full six-passenger roominess is provided in new 1937 Studebaker two-door sedans. The front seat cushion is in one piece, just as in the four-door sedans; and the back of the front seat is divided in such a way that there is no apparent division in the center. Thus, while either of the two sides will tilt forward, the whole of the seat-back has the appearance—and the comfort—of one piece.

A Saloonless Nation Presbyterian Sermon

On Sunday evening Rev. John R. Stevenson will preach on "A Saloonless Nation." America may be licked, but never defeated, will be the burden of the message. Special music by the choir will be a feature of the service.

In the morning service the pastor will speak on "Getting Things From God." Strangers are welcome in the church, which is located at Hanover and Evergreen.

Industrial Welfare Aids Work Women

More than $137,000 has been added to the earnings of women and minor workers in California by the Division of Industrial Welfare since January 1, according to a report released recently by Mrs. Mabel E. Kinney, chief of the division.

Wage adjustments collected totaled $29,054 and affected 6,256 workers, according to the report. Audit adjustments amounted to $106,494 in the fruit and vegetable canning industry.

FANCY WORDS and literary writing do not count in this contest—just your own reasons for *defeating a scheme to put hidden taxes on the foods and other necessities you buy*. So you can win as well as anyone.

Only residents of California are eligible. That gives you a better opportunity for a prize.

Merely obtain an Official Entry Blank—free, without special purchase—at any chain store. It gives the simple rules and a valuable list of ideas.

The sooner you start the more likely you will be to win $500.00 in cash or one of the 309 other money awards. Entries must be written on the official blank and postmarked not later than midnight, October 13, 1936.

READ THESE FACTS

Hiding under the innocent title of "Retail Store License," Proposition #22 on the November ballot is really a new scheme for taxing the public.

Proposing to tax individual stores $1 a year and *chain stores $500.00 for each store over nine*, it has been petitioned against by 136,000 Californians *because* . . .

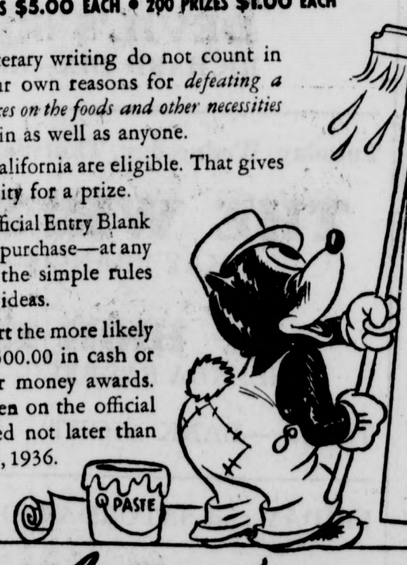

It Would Raise Prices
The U. S. Federal Trade Commission says: "If the ability to undersell, based on greater efficiency or on elimination of credit and delivery cost, is destroyed by taxation, it is the consuming public which will really pay the tax and not the chain."

It Would Be Unfair
Not a tax for revenue, not based on the ability to pay—it is an attempt to use the taxing power to destroy competition.

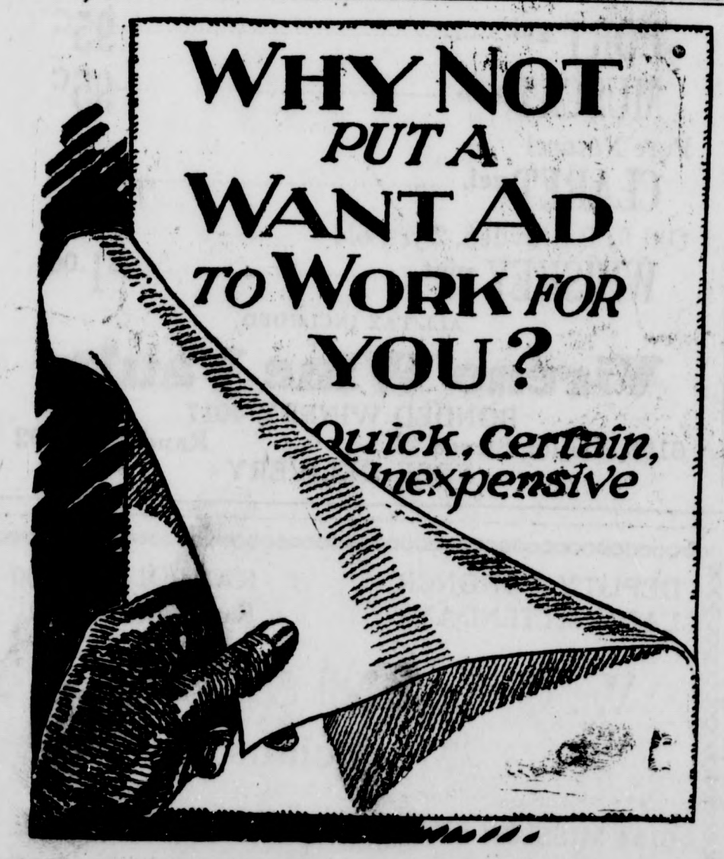

Small chain stores would be taxed up to 500,000 times as much per dollar of sales as big department stores.

It Would Hurt California
Chain stores now benefit California consumers, farmers, employment, property owners, taxpayers and investors. To cripple them is to hurt all California business.

Attention Club Members

This newspaper would be interested in receiving for publication a history of your club or organization; that is a reason for its existence. Also we are interested in the aims and accomplishments and what it is doing for its members.

We feel that not only would it help in building up your membership, but would enlighten our readers on a subject that should be generally understood.

They Are Going To Pull Through

Recently, President Roosevelt inspected dams, reservoirs, experimental stations, crops and drought effects, and made speeches here and there. He called on farmers living on the dry prairies of the Dakotas, where there is not a tree in sight. Many of these farmers lost their wheat crops on account of the dry weather and were allowed federal loans to put them on their feet again.

The President started his personal campaign to win the Dakotas over to the plan of a new farm economy which his drought committee recommended, a program which Mr. Roosevelt described as "co-operating with nature" instead of "fighting nature."

The President said further: "I shall take back to Washington with me the picture of a whole lot of people with courage, with their chins up, who are telling me they are going to see it through. And I am going to help."

Leisure Time Should Be Spent Profitably

"Leisure time should be the direct opposite of laziness. It should be a factor that will make life exciting and full of zest."

That is what Dr. Edward C. Lindeman, summer session lecturer at the University of California and director of the WPA community organization for leisure, told several hundred students in a recent lecture there.

In the good old days, a cowboy was a hired hand who worked fourteen hours a day, and tried to earn his pay by putting tallow on the boss' cows. And, except when "letting off steam" after pay day, he usually attended strictly to his own business, that business often necessitating a simultaneous change of name and address.

SMUG LITTLE FELLOW CALLOUS TO SUFFERER

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

The issue is clean cut:

Humanity exemplified by President Roosevelt on one side.

Reaction on the other.

Which camp do you belong to?

It's only a short time before the election and day by day the alignment is becoming clearer—as we all know, the malefactors of great wealth, as Theodore Roosevelt called the ruthlessly selfish band—the United States Chamber of Commerce, the Liberty League, and many of the corporations of the country—are for the Republican candidate.

The forward looking groups, such as the young people, the women, labor progressives and the farmers, are staunchly supporting President Roosevelt.

As I have said before in this column, the danger to the Roosevelt cause lurks among people who have been prospering despite the depression and fail to harken to the call of the President for just a small amount of unselfishness in their dealings with their fellow men. Some of these utterly selfish individuals shrug their shoulders when told of the great work that has been done by federal government agencies, such as the Works Progress Administration, and exclaim

"I have gotten along all right; why should I bother about the shiftless who don't want to work? I've held my job and provided for my family and all those fellows I am helping to take care of on relief projects should have done the same."

Such men who cannot see beyond the ends of their noses are not for President Roosevelt. They're eating regularly and apparently don't care whether fellow citizens starve or not.

* * *

Attacks on the WPA are well answered in several paragraphs of an editorial in the San Francisco News not long ago. The editor says:

"When we think of the millions of dollars of federal money disbursed in the national relief program and realize that no responsible head of the various agencies at Washington has yet been guilty of feathering his own nest, we must admit that a remarkable chapter has been written in American history; remarkable, that is, in the light of some past administrations wherein similar opportunities were productive of very different results.

"If, as some critics of the Roosevelt administration insist, there has been too much theoretical idealism and too little practical common sense in what has been done at Washington, sober judgment must credit the undertaking with honesty of purpose and execution, which should atone for many mistakes and even failures."

* * *

Floundering about more helplessly than ever, the Republican candidate for President has been trying, in his weak way, to criticize the administration on the score of alleged waste. He does not get very far. In fact, his showing is on the borderland of ludicrousness.

Owing to a substantial rise in federal revenues, the deficit for the coming year will be only $1,500,000,000—or a little more than half the amount of the last two years of the Hoover administration.

Of the amount the government will owe, about $560,000,000 can be charged up to the soldiers bonus, which was twice vetoed by the President, leaving a net deficit of something less than a billion dollars on the regular emergency budgets.

Close students of the situation point out that if Landon were elected, he might, like President Roosevelt, make a few gestures toward economy in the early days of his term of office, but there is no reason for thinking he could come any nearer to balancing the budget. In fact, Landon has put himself on record to the effect he recognizes the need of being generous in the spending of money for relief and emergency purposes.

In the last analysis, we cannot think of one valid reason for anyone voting for the Republican candidate for the highest office in the land.

EXPERIENCED HOUSEWIFE CLUB

(By Maude Larue Ives)

With dainty clubs we housewives stand,
Experienced cooks in this great land;
We wash and scour, brew and bake
And gladly, too, for love's sweet sake.

Our fluffy cakes and luscious pies
Make rosy cheeks and sparkling eyes;
Rolling pin scepters, trademark to reign
Queens of the skillet, more honors to gain.

Mrs. Andrew Vireno, 6198 Mission street, sends us a recipe for

Combination Cooked Vegetables Casserole

Put sufficient oil and butter in a skillet for frying. When hot add two sliced onions, let simmer for a while, then add six thingly sliced bell peppers and continue cooking; next add six zuccina or Italian squash in quarter inch slices. Continue frying all together. Lastly add four large or six small peeled and sliced tomatoes. Let mixed ingredients simmer together for about thirty minutes. Just before removing from fire season with salt and pepper. This vegetable dish may be enjoyed with or without a meat accompaniment.

Pineapple Pie

(From The Farmer's Wife)

One can shredded pineapple, yolks of two eggs, one half cup sugar, juice of one half lemon, two tablespoons corn starch and a pinch of salt. Heat pineapple, mix dry ingredients with beaten yolks, add to heated pineapple and stir until smooth and thick. Put in baked pie shell, frost with beaten whites to which a third of a cup of sugar and one scant teaspoon of baking powder has been added. Bake until whites are brown, about fifteen minutes.

HOUSEHOLD HINTS

Some time try baking a meat loaf in a tube cake tin. The loaf will bake more thoroughly and when turned out on a platter or chop plate may be garnished in the center with parsley.

Tell us about the good food you know how to prepare by sending a recipe to the Experienced Housewife Club, Daly City Record, 3317 San Jose avenue, Daly City, California.

Lesson Sermon Of Christian Science

"Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him." These words from I Corinthians comprise the Golden Text to be used Sunday, September 27, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Reality." Included among the Scriptural selections will be: "Though I walk in the midst of trouble, thou wilt revive me: thou shalt stretch forth thine hand against the wrath of mine enemies, and thy right hand shall save me. The Lord will perfect **that which** concerneth me thy mercy, O Lord, **endureth** for ever: . . ." (Ps. 138: 7, 8 to second:).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Perfection underlies reality. Without perfection, nothing is wholly real. All things will continue to disappear, until perfection appears and reality is reached" (p. 353).

OLIVER WAS RESPONSIBLE FOR FINE DISTRICT OF IRRIGATED FARM LAND

Former Desert Wastes Are Transformed Into Fruitful Orchards And Homes

Fifteen years ago Oliver was an irrigation construction camp. A narrow, green strip of vegetation followed the Okanagan River down through the valley to the United States border, 20 miles south. Back from the river on the low benches of land the only vegetation was sparse tufts of grass, greasewood, sagebrush, cactus and other plants.

Today Oliver is a busy little town of 350 persons, and upwards of 3,000 more reside in the neighboring district. The desert valley has been converted into a land of plenty, and orchards of apple, pear, peach, and other fruits checker the former pastures of long-horned cattle.

"Honest" John Oliver was responsible for this amazing transformation. The erstwhile premier of British Columbia, after whom the town was named, conceived the plan of irrigating the valley from the waters of the Okanagan River and dividing the land into ten-acre parcels for settlement by veterans of the Great War.

The Provincial Government purranchers, built the irrigation system, and growth and development have been gradual but steady ever since.

Originally the Provincial Government had in mind that the development for settlement of a tract of 22,000 acres, known as the Southern Okanagan Irrigation Project, of which upwards of 10,000 acres are irrigable. The project covers the best portion of the southern part of the Okanagan Valley, extending from a point about 22 miles south of Penticton, on the main line of the Kettle Valley Railway to the International Boundary, 4 miles north of Oroville, in the State of Washington.

A modern irrigation system, ensuring an ample supply of water was installed. The source of the water supply in the Okanagan River, which has a watershed of 2,560 square miles, and drains Okanagan, Dog and Vaseaux Lakes.

A concrete dam across the river below Vaseaux Lake diverts the water into the main canal which has a capacity of 170 cubic feet per second.

The water is carried across depressions in metal flumes and crosses the valley near the town of Oliver in a large inverted syphon. Lateral systems carry the water from the main canal to the irrigable lot.

Sufficient water to cover an acre to the depth of one inch an hour may be supplied to every ten acres, or to supply ten inches of water per acre during any month of the irrigation season. Certain lands above the main canal are supplied with irrigation water by electrically driven pumps.

The tract, which includes the community of Osoyoos along the Washington border, is the lowest in altitude and has the earliest season of any part of the Interior of British Columbia.

Here are grown the earliest fruits and vegetables in Canada. The low altitude of about 900 feet above sea level, which is considerably less than the level of Okanagan Lake, and the long days of sunshine are favorable for early and rapid growth of all garden crops.

This is the chief reason why Oliver has become known as "the home of the cantaloupe," that luscious vine-ripened fruit which is now marketed throughout British Columbia and the Prairie Provinces. But the cantaloupe is not the principal crop grown in the fertile Oliver Valley.

On the contrary, apples, peaches, pears and apricots predominate and here these tree fruits grow to perfection. Large quantities of tomatoes are also grown and grape growing is commanding some attention at present, with several small vineyards giving promise of future success in this branch of agriculture.

Since the initial picking of fruits from the first orchards planted, production of tree fruits has been increasing every year. Thirty-seven hundred acres are now under cultivation and supplied with water. Several large packing houses are in operation. Their shipments of fruit and vegetables run around 450,000 packages a year.

This includes 30,000 crates of cantaloupes, tomatoes, early potatoes and other garden produsc such as peppers and watermelons.

The revenues to the growers from fruits, etc., shipped out through the cannary's operations exceed $250,000 a year. Some 20 carloads of cattle a year are also shipped.

The Irrigation Project is administered from the Provincial Government office at Oliver and its resident manager is D. G. McCrae. The area now under irrigation is approximately 3,500 acres. There is still a limited amount of land for sale, but it is pointed out that anyone coming here to go on the land should have enough money to carry him for twelve months.

Coal mining also contributes a share to the prosperity of the Oliver district. Near the old mining town of Fairview, which is almost in Oliver's back yard, the Fairview Amalgamated Mines (combining the old Fairview and the Morning Star, merged last winter), are operating with a large crew. At the Morning Star concentrates about 100 tons of ore a day are being treated.

Fifteen miles south, the Osoyoos Mines Ltd., a Calgary company, recently brought its property into production after two years development work. Already handling 50 tons of gold ore daily in its new mill, this company's plans call for a larger mill and increased production in the near future. This Company, too has more than 30 men on its payroll.

Other mining properties in the district are in course of development. Mining and other government matters, apart from the Irrigation Project, are under the jurisdiction of W. H. Laird, government sub-agent at Oliver.

Further develpoment in the district is noted in the building of the Western Kootenay Light and Power line from Oliver to Greenwood, and in the construction of the Oliver airport. In Oliver itself building operations this year aggregate $40,000.

One of the largest industries of the town is the sawmill and box factory which, in season, gives employment to many persons.

Oliver has never experienced a boom. Growth has been healthy, steady and gradual, keeping pace with the settlement of the land and growth of the young orchards. The town is provided with waterworks and with electric light and power supplied by the West Kootenay Light and Power Company.

Other requirements of the residents are well taken care of by grocery and general stores, hardware, drugstore, confectionary stores, garages, meat markets, bakeries, plumbing and heating shop and professional services found in a progressive community. It also has a weekly paper and job printing plant, several churches, excellent elementary and high schools, a large Canadian Legion Hall, a splendid bank, and two up-to-date hotels.

Three packing houses handle the fruit crop at Oliver, and two at Osyoos, and there are also two more packing houses four miles south of Oliver. The local cannery of Canadian Canners (Western) Ltd., has operated here for many years.

Pretty little Tuc-el-nuit Lake, less than a mile from Oliver, provides bathing and fishing for the residents of the town; at Osoyoos the Osoyoos Lake is a popular bathing and fishing place. The Tuc-Inn tourist camp at Tuc-el-nuit Lake offers ideal accomodations to the tourist who visits Oliver.

Oliver citizens enjoy their sports, as testified py the various sports organizations, which include pasketball, padminton, tennis and golf clubs, and newly organized aquatic club. The younger generation have their Boy Scouts, Cubs and Girl Guide organizations.

Oliver also has a Board of Trade, Masonic and Elks Lodges, Women's Institute, and branch organizations of the various churches.

Check Your Brakes To Save Trouble

In a recent motor vehicle inspection test in one of our largest cities, nearly half of the cars that went through the "Safety Lane" had defective brakes. Out of nearly 6,000 automobiles inspected in one week's time, less than 2,000 were found to be in perfect condition.

When this situation is found in a metropolitan area it is small wonder that 15 per cent of our motor vehicle accidents can be attributed to mechanical deficiencies. This does not mean that cars are unsafe when they leave the factory. Rather, it means that drivers neglect their automobiles after they have driven them for awhile—or they keep on driving antiquated cars that should be junked.

You should test your brakes daily, soon after starting out in the morning. If they are not in perfect condition, have them repaired at once. The wheel alignment, tires, headlights and horn should be checked regularly, too. Don't wait until an acident calls attention to these defects.

Second Gear Makes A Good Brake

Just as second speed makes the best combination for a quick getaway, so does it make one of the best ways of stopping quickly in traffic.

When the spurt of speed is simply a mattter of skinning past a few snailing cars, and stopping again behind a street car some 200 feet ahead, remaining in second will be found handy for the entire job of speeding up and slowing down.

Nine-tenths of the job can be done with the throttle, which is a bit closer to the ideal in speed control.

MINING NOTES OF VARIOUS SECTIONS

Ginger Coote, well-known pilot, is now flying in 4500 pounds of supplies for Taylor-Windfall Gold Mines, operating in the Whitewater, or Taseko Lake country, 45 miles north of Bridge River.

Supplies are trucked from railhead to Gun Lake, and then flown over rough country and Taylor Pass, which rises to a height of over 7000 feet, to Taseko Lake, whence they are taken to mine by packtrain.

Declaration of 3-cent dividend for current quarter, with extra of one cent per share, brings the grand total of distributions by Premier Gold Mining Co., the famous Portland Canal gold-silver producer, to $18,958.074, equal to $3.79 per share upon 5,000,000 shares issued.

During 1935 three dividends of 3 cents and one of 4 cents were paid bringing distribution for the year to $650,000.

This year, so far, $400,000 has been paid or declared and if same rate is maintained for the remaining two quparters, total for 1936 will reach $800,000, or around 6.66 per cent upon the capitalization at present market price.

* * *

Preliminary work has started on an economic survey of California's vast mineral resources under the sponsorship of the California State Mining Board.

* * *

The increase in the contemplated milling capacity of the Cariboo Gold Quartz property will not stop at 200 tons per day, but will be stepped up to 275 tons per day.

* * *

An authoritative source reports that the land recorder in the Homer district is swamped with applications for homesites.

The same source reported that there are already 150 settlers on the ground with 18 midwest familes due to arrive in the spring. Another 116 familes from the same locality have banded together and paid the expenses of a committee of experienced farmers to investigate.

* * *

Montreal is in the throes of an old-fashioned gold boom, based upon her own great fields at Chibougamau, Siscoe and elswhere, with the extent of responsive areas extending daily.

Statistics just issued show that during 1935, the province produced 474,654 ounces worth $16,612,890, compared with 390,103 ounces, worth $13,653,605 in 1934.

Thus, Quebec comes second to Ontario among provinces of the Dominion leaving British Columbia well in the rear in third place.

Back in 1927 production was but $172,690, so that the increase in eight years has been more than 9000 percent.

* * *

Statistics show that Great Britain did a rushing business in silver under the stimulus of high United States demand during last year.

Imports are placed at 261,978,476 ounces and exports at 24,031,799 ounces compared with imports of 158,430,965 ounces and exports of 127,425,965 ounces in 1934 and about half that amount in the two preceding years.

* * *

The proposed international highway is viewed by Ike P. Taylor, chief engineer of the Alaska Road Commission, as a necessary forerunner to commercial air service over the same region.

"Until the righway extends across British Columbia and Yukon territory, along which can be located regular emergency landing fields, it would be folly to attempt to operate passenger, mail or express planes on a regular schedule between the United States and Alaska."

* * *

N. E. Nelson, formerly chief field engineer for Grenby Concolidated, heads a syndicate that has taken a four-year lease upon Dunwell mine, four and one-half miles from Stewart, Portland Canal district, with royalties running from 5 per cent to 25 per cent, according to ore values.

It is expected that operations will be commenced in March and that present mill of 25 tons capicity will be increased to 40 tons duty.

Eddy MacDonnell is sporting a new coupe. All he needs now is a pretty girl in a new fall suit and hat to sit in the seat beside the chauffeur.

* * *

Mr. Raymond Coyne, it is whispered, had too much Sunday, and a deep, dark, blue Monday to follow.

A favorite pursuit of the young men in the neighborhood of 223 Liberty street, San Francisco, is marrying one of Mr. Roddy's nieces. Three of the charming young girls were recently lined up enroute to the altar. Miss Mary Roddy was married last week, in a sumptuous church event, to Bob Beacum. Another niece, Miss Mary Ann Kilgannon, is reported engaged to Frank Walsh (see the Blue Book) with an early wedding planned. John Haggerty—data on this case later on. The Roddys attended an evening reception at the Sir Francis Drake, last week, following the wedding of Miss Helen Misuracci to Mr. Uniack. Rumor hints that James Roddy Jr. and Miss Marian Misuracci are often seen together at social affairs.

Mrs. Marguerite Remmer entertained guests at luncheon last Sunday, including George Mulloy, his mother, sister and small niece. A very appetizing menu was served, and a pleasant visit enjoyed. Mr. Mulloy stands six feet seven in his sox. He is the man who laid the art cement in the Remmer house, and had to fold himself up when he started doing the low-ceilinged room in the basement. He said it gave him a backache for days afterward, and we don't doubt it.

This means Vallemar and Rockaway Beach. Point San Pedro news may be brought direct to me.

Theda Valentine Honored Guest At Stork Shower

Mrs. Jennie Bicknall was hostess at a delightful "stork shower," Thursday evening of last week, at Rockaway Beach, with Mrs. Theda Valentine as guest of honor.

The ladies present were seated at a beautiful table where delicious refreshments were served. The color scheme was worked out in pale pink, blue and white. Favors were pink miniature baby carriages with blue trimmings. Ice cream was served as individual bootees, storks and other appropriate designs.

Beautiful boquets of pink dahlias decorated the center of the table, and tall candles cast an enchanting light. Pink dahlias also decorated the room. The cakes served were especially beautiful and harmonized with the color scheme.

A very enjoyable time was reported by those who attended, and Mrs. Valentine was showered with lovely gifts.

Those who enjoyed Mrs. Bicknall's charming hospitality were Mesdames S. G. Schussman, Ivy Pidgeon, Hertha Rich, W. E. Bailey, E. Peterson, O. J. Wallace, Emily E. Shank, Mary Eskenberry, Edgar Richardson, E. Henderson, A. Brightman, C. Reid, Misses Florence Troglia, Annabelle Troglia, June Louise Soop and Marian Rich.

Shock Absorbers

Shock absorbers should be checked at regular intervals and serviced when necessary.

They not only control riding qualities but they also control steering. When out of order they cause the car to shimmy or wander on the road and make driving difficult and tedious.

Help Win Safety Game Against Death

The grim Five-year "Game" against motor vehicle deaths, sponsored by the National Safety Council is now in the ninth month of the first year, according to the Public Safety Department of the National Automobile Club. The campaign was started January 1, with the objective of cutting traffic accidents 7 per cent each year for five years. This ultimate reduction of 35 per cent would mean a saving of at least 38,000 lives.

The score at the end of seven months showed a slight advantage for the forces of accident prevention. Traffic deaths at that time were 2 per cent below the number for the corresponding period in 1935. Substantial reductions must be made for the remaining months of the year in order to attain the goal set for the first year of the campaign.

CONTINENTAL TOURS REACH LARGE VOLUME

Shuttling back and forth across the breadth of the nation, transcontinental motor travel this year is setting the highest mark in history, declared a report recently by the touring bureau of the California State Automobile Association. General touring facts listed in the report were

Requests for coast-to-coast trip routings handled by the automobile association and principal affiliated A. A. A. clubs have run 20 to 30 per cent above last year.

In mid-August, when drouth and heat conditions were at their worst, there was a temporary falling off, but this condition quickly disappeared and failed to make an appreciable dent in the remarkable flow of travel as a whole.

National parks in California and other western states report a heavy increase in travel, with more visitors from eastern states than ever before. Western recreational resorts report increases of 30 to 50 per cent in tourist patronage. The Pacific northwest and Canada are drawing heavy flows of visitors.

Accompanying the increase in transcontinental touring has been a substantial increase in motor touring generally above the 1935 volume, which itself set a new high mark. Gasoline consumption figures indicate a gain of more than 10 per cent over last year's record-breaking figure.

This increase in touring forecasts a similar gain in total tourist expenditures for this year, which probably will exceed the $4,000,000,000 mark and establish the year as an outstanding one for those catering to the tourist trade.

Cuts Foot On Glass

Joe Francora, 23, a fireman of Colma, was treated at the Junipero Serra Hospital last Saturday, for a badly lacerated right foot. Seven stitches were necessary to close the wound.

Joe injured the foot when he stepped on a broken piece of glass while playing ball.

Will Hold School For Instruction

A card party will be held by Daly City Unit No. 410, American Legion Auxiliary, in the club house, 474 San Diego avenue, on Thursday evening, September 30. Mrs. Ann Welsh is the chairman, and has promised many good prizes, the first of which will be cash. This is the first of the regular card parties planned for this year.

On Monday, October 5, a School of Instruction will be held in the War Memorial Building in San Francisco for the assistance of the chairmen and unit officers. The department officers will be present to answer questions and instruct them in their duties. The president of Daly City unit, Mrs. R. L. crane, requests the presence of her officers and chairmen at this meeting, so that the Legion Auxiliary work may be carried on in an efficient way in Daly City.

Attends Conference At Nation's Capital

Myron G. Cropsey, son in law of Mr. and Mrs. W. E. Pitschke, is attending an agricultural engineers conference in Washington, D. C. He was one of three recommended from the Department of Agriculture of the University of California at Davis as a young man who was demonstrating outstanding ability since graduation.

About 2,000 trained agriculturists were invited to this meeting to discuss water control and improvements to be made in the future. The conference was authorized by President Roosevelt.

Old "Unloaded" Gun Shoots Colma Youth

The ancient and oft-repeated tale of the gun that wasn't loaded was repeated Sunday in Colma, and as a result Nick Perata, 18, was taken to Junipero Serra Hospital for treatment of a gunshot wound of the right hand.

Young Perata, who lives on A street, told hospital attendants he was tamping his rifle and "didn't know it was loaded.

Honor Guest At Surprise Party

Mrs. J. Gorman of Winchester street entertained a group of friends, Wednesday of last week, honoring her sister, Mrs. Bertha Livacich of Twenty-eighth street, with a surprise party on her natal day.

The honor guest was presented a handsome silk bed spread.

After luncheon the afternoon was passed playing whist.

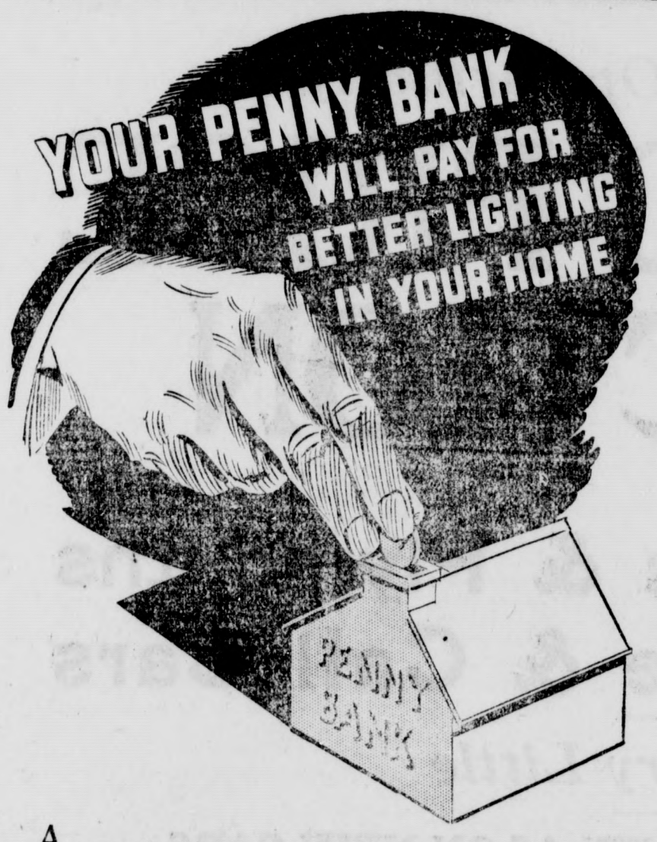

The guests included Mesdames E. C. Boyle, B. Livacich, W. Pomisel, A. Jirgens, R. Woodard, J. Gorman, L. Nelson and daughter, Lorraine.

A penny bank will pay the difference between ordinary lighting in your home and scientifically correct better light for better sight.

For better lighting today is both sensibly reasonable as well as scientifically right. Modern lamps are without fussy, frilly shades that subdue light. Modern lamps instead have light-colored shades that are open at the top and set on higher stands to give light a chance to diffuse throughout a room.

When a Sight Meter records or measures the difference between lamps of a few years ago and the modern Better Sight lamps of today, as much as 4 to 5 times as much light for seeing, reading, sewing, etc., is produced by the modern lamp.

More than a half million Better Sight lamps were sold last year. Persons who use them say there is nothing like them. These lamps do give more light, without glare, and for just a few pennies more a day than ordinary light that so often causes squinting and eye strain.

Replace small bulbs with lamps that give MORE LIGHT
